DORISKATH

About DORISKATH

In 2014, "DORISKATH" was founded by a local designer in Hong Kong. The fundamental concept is "One Item, Multiple Styles", the same item can be presented in numerous ways.

Being invited to Global fashion platforms like the Copenhagen, London, Shanghai, and Shenzhen Fashion Week stages, DORISKATH's designs attracted buyers over the world. Besides, DORISKATH actively participated in commercial events, and many celebrities fell in love with it. They often invited her to design tailor- make clothes and gowns for various business and private events.

A breakthrough came with DORISKATH this year. It used to cooperate with other creative brands, e.g., Lego. Moreover, DORISKATH launched the SS22 collection in CENTRESTAGE (in Hong Kong), and it is the first time to include menswear designs.
